Contexte Charge Code Changes in response to results of the 2013 Legislative Session - effective August 15th 2013

In response to the results of the 2013 Legislative Session, the AOC identified several charge code additions and changes that became effective on August 16, 2013. The new charges have been added, outdated charges have been ended and replaced with the updated charges, and changes have been made to the current district court bond schedule, as applicable.

Below is an excel file showing a list of charge codes that have been ended in Contexte and the corresponding charge codes that replaced them. The file also contains information about new charge codes that were added to Contexte.

District Courts,

We have added the new charges that replaced the ended charges to your bail penalty schedule using the same fees and fines structure. Please email the ACAP Help Desk for additional information about this process
