I.T.'s About Time

In today's fast-paced world, everyone's time is valuable. For parties and attorneys, the courts should aspire to helping them make the best use of their time at the courthouse and the court's time in disposing of the issues. This session will explore Contexte scheduling, the availability of scheduling information in CourtConnect and Vine, and look for opportunities for the courts to conserve one of its most precious resources.

Discussion Points

- How has using Contexte Scheduling changed the office procedures?
- Do other offices/agencies use Internal Court Connect or Contexte to review schedules for a date?
- What docket reports do you use and how do you use them?
- VINE and Scheduling

The Arkansas VINE Service provides court event information on criminal cases handled by participating Prosecuting Attorneys. However, there are some counties where the Arkansas VINE Service is receiving information on criminal court cases from Circuit Courts. Some Circuit Courts are sending scheduled events to the Arkansas VINE Service while some are unable to send any events such as trial dates. Registration for notification on court cases are available from participating Prosecuting Attorneys and Circuit Courts where event information is received by Arkansas VINE.
